### **DETAILED ACTION**

1. In view of the Appeal Brief filed on August 21, 2007, PROSECUTION IS HEREBY REOPENED. A new ground of objection set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below.

### ***Ex Parte Quayle Action***

2. This application is in condition for allowance except for the following formal matters:

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). Such sequence is present in Figures 1 and 3, and on pages 7, 14, and 21. However, this application fails to comply with the requirements of 37 CFR 1.821

through 1.825 because these sequences are not followed by a sequence identifier (SEQ ID NO:X). Applicants are given the same response time regarding this failure to comply as that set forth to respond to this office action. Applicants are reminded that it is required that SEQ ID No's be amended into the specification at each sequence, and that when a sequence is presented in a drawing regardless of the format or the manner of presentation of that sequence in the drawing, the sequence must still be included in the Sequence Listing and the sequence identifier ("SEQ ID NO:X") must be used, either in the drawing or in the Brief Description of the Drawings. Failure to comply with these requirements may result in ABANDONMENT of the application under 37 CFR 1.821(g).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

### ***Interview Summary***

3. On February 14, 2008, the Applicants suggested and the Examiner agreed to making the changes listed on the Interview Summary.

### ***Allowable Subject Matter***

4. Claims 35-53 and 66-68 are allowed. The prior art does not teach or suggest using offset tables to determine a difference in positions value and forming k-tuple tables associated with the k-tuple to identify patterns by collecting adjacent rows .
